< Notes >

- Forward-looking statements contained in this report are based on information available as of the date this report was prepared. A variety of factors may cause actual results to differ from projections.
- The acquisition of the Demag Mobile Cranes business (Hereafter "Demag") was completed on July 31, 2019. In this report, information for Demag is treated as follows:
 - FY2019 Consolidated Financial Statements: B/S as of December 31st and P/L from August to September are included.
 *Adjustments are made retroactively due to PPA. PPA("Purchase Price Allocation") is a process to

"Adjustments are made retroactively due to PPA. PPA("Purchase Price Allocation") is a process to appraise assets and liabilities at fair value and allocate purchase price.

Income Statement

In addition to decreased net sales, cost of sales ratio deteriorated due to changes in product sales composition (mainly for Demag products), resulting in third quarter operating loss recorded for the first time in ten years since the third quarter of FY2010.
 Provision of allowance for losses related to violations of emission regulations and losses on valuation of investment securities recorded as extraordinary losses.

					(Unit: millions of yen)

Major Factors Leading to Change in Operating Income

TADANO

2

Lifting your dreams

✓ Despite expense reduction, operating income decreased by ¥11.2 billion due to decrease in sales volume and consolidation of Demag business.

*Note: Demag business loss of -3,389 million yen recorded from August through September of 2019 (including retroactive adjustment of -1,179 million yen due to PPA)

Balance Sheet

✓ Accounts receivable decreased, inventory levels remained unchanged.

Preparation for prolonged Coronavirus disruption. (Cash deposits and Interest-bearing) debt increased)

						(Unit	: millions of yen)

Mobile Crane demand by region (Compared to same period of previous fiscal year)

Note: The table above excludes China and Crawler Cranes

Future Outlook (By Region)

Region	Immediate Future Outlook
Japan	Crane utilization rates are rising. Sales opportunities are increasing as end of fiscal year approaches.
USA	COVID-19 infections still increasing. Low demand levels continue. Economic recovery is expected due to economic policies after presidential transition.
Europe	COVID-19 infections increasing rapidly throughout Europe. Crane demand toward end of year was relatively stable, but demand level is far from that before outbreak of COVID-19.
Asia	Demand is still low, especially in hard-hit Indonesia and Philippines, in addition to Thailand, where COVID-19 infections are accelerating again. Still no signs of demand recovery.
Middle East	Low crane demand levels continue. We need to pay attention to how recent recovery in oil prices affects economy and crane demand.
Other	In Australia, despite decreasing crane demand, sales opportunities on the rise due to increase in natural resource commodity prices, in addition to government planning to increase infrastructure investments.
