Tadano Ltd.

TSE: 6395

Contact: Kozo Yoshida, Officer

Information Disclosure Based on TCFD Recommendations (as of April 2022)

In April 2021, Tadano Ltd. announced the Tadano Group's support for the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD) established by the Financial Stability Board (FSB). Today, we would like to disclose the following information, including the impacts on our business resulting from climate change-related risks and opportunities:

1. Our Policy

The Tadano Group holds as its Business Objective the implementation of our Corporate Philosophy of "Creation, Contribution, and Cooperation," which pairs with our Vision that is expressed as "Pursuing Further Excellence for the World and the Future." Based on these concepts and in keeping with the belief from the time of Tadano's founding that a company can exist only when it is in harmony with the people around it, we have conducted business activities with a focus on harmony with our stakeholders. In the spirit of "great harmony," we want to contribute to a better global environment as a part of the society. As we step forward into our second century of business operations, we seek to achieve long-term growth as a company. These concepts drive Tadano as we engage in ESG and SDGs.

We are committed to contributing to a better global environment as a part of the society through our products, services, and business activities and through the behavior of our individual employees. In the Tadano Group Mid-Term Management Plan (21-23), we set the Group's long-term environmental targets as 25% reduction of CO₂ emissions from business activities and 35% reduction of CO₂ emissions from product use by 2030 - compared to the baseline year of 2019 - and we also aim for Net Zero Carbon Emissions by 2050.

2. Response to TCFD Recommendations
